## **ICAR-CTRI : A BRIEF NOTE**

Tobacco (Golden Leaf), the mandate crop of ICAR - Central Tobacco Research Institute (CTRI), is one of the important commercial crops in India. With the current annual production of about  $750 \times 10^6$  kg cured leaf from an area of about 0.45 m ha, India is one of the leading tobacco producing countries in the world. Tobacco makes a significant contribution to national economy by way of export earnings of about 60 bn INR and excise levies of over 200 bn INR, besides providing employment and livelihood security to a large number of people engaged in its cultivation, curing, grading, manufacturing and marketing.

The ICAR-CTRI is one of the premier research Institutes functioning under the Crop Sciences Division of the ICAR and mandated to conduct basic, strategic and applied research on different types of tobacco grown in India. It has a network of six Research Stations situated at Guntur, Kandukur, Jeelugumilli (Andhra Pradesh), Vedasandur (Tamil Nadu), Hunsur (Karnataka) and Dinhata (West Bengal) and a Burley Tobacco Research Centre at Kalavacharla (Andhra Pradesh). The Research Stations are catering to the requirements of tobacco farmers in their

respective agro-climatic zones by developing improved varieties and crop production technologies.

### **Vision**

Provide vibrant research back-up for Indian tobacco to be less harmful, remunerative and globally competitive in the changing milieu of national and international policy regimes.

### **Mission**

Developing environmentally sustainable agro-technologies for production efficiency, product quality and diversified uses of tobacco.

### **Areas of research focus**

- ✦ Production of tobacco with reduced levels of harmful constituents.
- ✦ Enhancing farm returns through innovative interventions for sustainable resource use and production efficiency.
- ✦ Exploring and effective use of alternative energy sources for tobacco curing to reduce dependency on forest fuel wood.
- ✦ Exploiting tobacco for diversified uses (phytochemicals and value added products).
